ABSTRACT

During the past few years, education has assumed a dominant position among the many tools used by correctional personnel for the purpose of rehabilitating the criminal offender. The nature of these educational programs has evolved from those that were largely vocational in scope to those attempting to increase the scholastic achievements of the incarcerated individual. This catalog was created to: (1) identify those colleges and universities that will accept paroled ex-offenders and cooperate with correctional institutions in developing relevant and meaningful policies; and (2) provide basic admissions information regarding the particular institution's policies pertaining to the acceptance of a G.E.D. and the availability of financial aid. Questionnaires were sent to 2,229 colleges, universities, junior colleges, and community colleges, but only 34% or 759 were returned. The information contained on the returned questionnaires is presented in the catalog. It is hoped it will be of value to correctional officials and educational personnel in their respective fields. FOREWORD

During the past few years, education has assumed a dominant position among the many tools used by correctional personnel for the purpose of rehabilitating the criminal offender. The nature of these educational programs has evolved from those which were largely vocational in scope to those attempting to increase the scholastic achievements of the incarcerated individual. Of late, many enlightened correctional authorities have continued this process through the college level, and have succeeded in preparing many inmates, who were previously labeled socially unacceptable, for the continuation of their academic programs after release.

The information to be found in this catalogue is presented with the growth and national acceptance of these programs in mind. The purpose of this catalogue is twofold: 1) identify those colleges and universities that will accept paroled ex-offenders and cooperate with correctional institutions in developing relevant and meaningful policies pertaining to this problem; 2) provide basic admissions information regarding the particular institution's policies pertaining to the acceptance of a G.E.D. in lieu of a formal high school diploma, and the availability of financial aid. Both of these questions were considered with the background of the ex-offender in mind.

In order to present a more accurate picture of the

number of colleges and universities that would accept an ex-offender as a student, it was felt that each institution should be contacted individually. Hence, two thousand-two hundred and twenty-nine ( 2,229 ) questionnaires were mailed to colleges, universities, junior colleges, and community colleges. Seven hundred and fifty-nine ( 759 ) institutions ( 34.0% ) responded to the questionnaire, and fourteen hundred and seventy ( 1,470 ) institutions ( 66.0% ) did not reply.

It is hoped that the information in this catalogue will be of value to correctional officials and educational personnel in their respective fields. It is further hoped that this information can be utilized to greatly improve the opportunities open to the ex-offender after his release.

DESCRIPTION OF CATALOGUE SHEET

The catalogue sheet is divided into three basic columns with the titles: STATE, INDEX NO. OF SCHOOL, and RESPONSES TO QUESTIONNAIRE.

STATE

The responses from each institution are listed in a numerical order within the state in which the institution lies. The states are listed in the first column in alphabetical order.

INDEX NO.  
OF SCHOOL

To facilitate the recording of the responses in an orderly and logical manner, the Admissions Search Kit for Counselors, published jointly by the National Association of College Admissions Counselors and the B.M. Corporation and reprinted here by their permission, (see appendix B) has been used as a reference and a guide. The letters and numbers in this column indicate the institution's numerical position resulting from an alphabetical listing of the various institutions within a particular state. Thus, Al 01 indicates the first school in the state of Alabama in this alphabetical listing. Appendix B contains a complete listing of all colleges and universities arranged in the manner described. The name of a specific institution may be found by referring to this appendix and locating the index number.

RESPONSES  
TO  
QUESTION-  
NAIRE

This column is sub-divided into eight (8) smaller columns, each coinciding with a specific question from the questionnaire (see appendix A). The numbers that head each of these columns correspond to that particular question. Hence, 1. indicates the responses to the first question on the questionnaire, 2. indicates the answer to the second question on the questionnaire, and so forth. Column six (6) has a subsidiary column on the immediate right which contains the requested G.E.D. score that is required for admission in lieu of a formal high school diploma.

As many of the target institutions did not reply to the first questionnaire, a second mailing has been undertaken and will be completed in the near future. As these institutions reply, notice will be sent to holders of this catalogue so that they may bring their lists up to date.

## DEFINITION OF SYMBOLS AND TERMS

In order to make the catalogue sheet as brief as is possible, the writer has substituted appropriate abbreviations in lieu of the longer formal answers. These abbreviations and any other terms that require an explanation are listed below in the order in which they appear on the sheet.

These definitions refer only to those columns under the title, RESPONSES TO QUESTIONNAIRE.

### Columns one through six(1-6)

The questions that these answers correspond to require only a yes or no response. Y is equal to a yes response, N is equal to a no response.

### Column entitled SCORE

This column lists the G.E.D. score that is required for admission in lieu of a formal high school diploma. For example, 50.0 indicates that the institution requires an average of 50.0 on the mean standard score. The percentile rank has not been used in this catalogue. The term, OPEN, indicates that the institution accepts the G.E.D. but did not specify a particular score.

### Column seven(7)

Y is equal to a yes response, N is equal to a no response.

### Column eight(8)

The specific aid programs that the particular institution offers are listed in the column. NDSL is a National Defense Student Loan, EOG is an Educational Opportunity Grant, WSP is a College Work Study Program, NDEA is a National Defense Education Act Loan, and USUAL AID PRO. indicates that aid is available but the exact nature of this aid is not specified.

### DESCRIPTION OF PROJECT NEWGATE

Morehead State University's Project Newgate is a funded demonstration project in correctional education designed to: (1) provide an intensive college preparatory and college level educational program for a select number of federal prisoners at the Federal Youth center in Ashland, Kentucky; (2) supplement the educational component with intensive individual and group counseling sessions; (3) extend the program beyond the release date through realistic pre-release planning and intensive post-release follow-up. Created initially as an extension of the Upward Bound Program, Project Newgate is now operating as an independent program under the direction of the Office of Economic Opportunity.
